Section 5 Reactivity Data				
Stability stable under normal storage and use	Conditions to Avoid none known			
Incompatibility (Materials to Avoid) oxidizing agents, strongly alkaline	e and strongly acid materials			
Hamandaya Dagamanasitian an Dynnadyata	produce carbon dioxide and may yield carbon monoxide,			
oxides of nitrogen, etc.				
Hazardous Polymerization will not occur	Conditions to Avoid n/a			

## Section 6 Health Hazard Data

eye and skin contact, inhalation, ingestion

Health Hazards

This product may be an eye irritant. Prolonged or repeated contact may cause skin irritation. Prolonged exposure in poorly ventilated area may cause headache, dizziness and respiratory tract irritation. Ingestion may cause gastrointestinal irritation, nausea and diarrhea.

Carcinogenicity

Medical Conditions

Generally Aggravated by Exposure none generally recognized

Emergency and First Aid Procedures

Eye:

Check for and remove any contact lenses. Immediately flush with plenty of

water. Get medical aid.

Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Inhalation: Remove to fresh air. Administer artificial respiration if necessary. Get medical

Ingestion: Do not induce vomiting. Give 1-2 glasses of water to dilute stomach contents.

Get medical aid. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Never give anything by mouth to an

unconscious person.

## Section 7 Precautions for Safe Handling and Use

Steps to Be Taken in Case Material Is Released or Spilled Stop leak if without risk. Prevent entry into drains or watercourses. Absorb with an inert material and put in an appropriate waste disposal.

Dispose of in accordance with local, state and federal environmental control regulations.

Precautions to Be Taken in Handling and Storing

Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Store in a cool well-ventilated area. Keep from freezing. Keep out of reach of children.

## Section 8 Exposure Controls and Personal Protection

Engineering controls

Provide adequate ventilation. Local exhaust in addition to general room ventilation may be required to meet exposure limit(s).

Personal Protection

Respiratory: none required with normal use in well-ventilated area

NIOSH approved respirator is advised for poorly ventilated areas.

Eye/Face: Safety glasses, splash googles.

Skin: Wear chemical resistant gloves. Wear long legged, long sleeve work clothes. Launder

contaminated clothing before reuse.

Do not store, use, and/or consume foods, beverages, tobacco products or cosmetics next to material. Wash hands and face carefully after work.

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
